The facts, just the facts – The news cycle continues to be dominated by political news and the new Trump Administration. Factual reporting has been challenged and NPR might be doing the best job of any media outlet in differentiating fact from fiction and news from fake news. There has never been a more important time for properly vetted and clearly explained factual news reporting. We believe 91.9 KVCR and NPR are up to the task.

In mid-January we introduced **SHOUT!** a new weekly two-minute segment resulting from a Gospel music history project at Baylor University. The segment airs within **Weekend Edition Sunday** and also during **KVCRaRts with David Fleming**.

The segments highlighted notable achievements and underreported events in American history.

SBVC student Aaron Romero is enrolled in RTVF Station Management and is working with us on the radio side of KVCR this semester. We are also enjoying comprehensive reporting from UC Irvine student intern Charity Lindsey who also reports for the **Victor Valley Daily Press**. In a few weeks, we’ll say farewell to KVCR Professional Expert, Brandon Gunzel who, among other things, produced a valuable series of radio news stories on Earthquake preparedness.
